Greisman Jermall Charlo is content with his next opponent. So is featherweight champion Leo Santa Cruz. "I think [Charlo] would be a great match up," Santa Cruz said, via a teleconference call. "This is a huge fight for him and I know he wants to take it. I think a fight like this would be great for both of us, so I'm looking forward to that." Charlo is not so sure. "When Santa's out talking trash, you know it's going to be a big fight," Charlo said. "He's saying that he's scared of me. We've got a lot of big things going on here. I haven't made any statements about who I want to fight. I've been too busy to make any statements. But he's scared of me." Charlo is apparently not scared of the opponents he has mentioned. "Listen, he's scared of the two

Focus on creating a kick drum Kick 2 couldn't have a more simple and fitting name. When you open the plugin, you'll be greeted by a pretty waveform that you can start modifying immediately using a frequency curve that's very easy to manipulate. In fact, the whole interface is intuitive, and even if you don't know much about sound design, you can quickly make a punchy bass drum with this powerful synth. In order to shape your kick, you should experiment with different clicks; these can be defined as extra layers of sounds and effects that you add over the kick to enrich the sound or take it in a different direction. You can add as many as three clicks. More features and presets. Other parameters which you can use include a four-band EQ, a distortion unit, a drive knob, a compression unit, and a sub harmonics control that you may use to add more depth to your sound. Finally, Kick 2 comes with a few hundreds of presets that you can incorporate into your compositions, or use as a starting point for your creation.
