Introducing...

Elden Ring

The Archetypes of Elden Lords

We wanted to create an RPG for the age of Brave New World, driven by the desire for freedom.

However, we also wanted to implement a style of RPG that satisfies those who want to fight and challenge themselves. When creating an RPG that celebrates those who grow stronger with every defeat, it was natural to pay attention to the archetypes of Lord/Giant, Monarch, Archer, Fencer, Mage, Monk, Warrior, Swordmaster, and Blood Knight.

We are grateful for their birth, and would like to invite you all to find the strength to become a Lord!

Rebel against Prohibition!

At the moment, we are putting out about 400 possible bosses, and hope to be able to give each boss a difficulty setting.
Additionally, if it becomes clear that the difficulty of the bosses is too high, the game will include their variations. We are also making a hurry-up feature to allow you to customize the difficulty.

You can select the difficulty at any time before you start playing the game.

Explore, Discover, and Conquer!

We are putting together a world where each place and all
