Rainbow Studios has mastered ATV's, conquered motocross, and now redefines the genre they built on the PC. Rainbow Studios isn't the only one building anymore, as the MX vs ATV Unleashed franchise introduces a track editor for the first time, allowing players to create the ultimate offroad environments. Race through miles of open terrain and vast environments in a multitude of vehicles vying to own the offroad. Immense freeworld areas boast a variety of specialized SuperMoto, Short track, Hill climb, and Waypoint races. Just when you think you've reached the pinnacle of racing, an assortment of freeworld challenges, freestyle competitions, and a variety of mini games await. Take on the racing world in an attempt to knock off motocross and ATV riders in over 50 technical supercross and rugged outdoor tracks. Throughout the season, motocross bikes and ATV's collide on the same track to determine racing's best machine. The most complete offroad experience unleashes the power into the players hands on the PC.Key Features Track editor: create the ultimate off-road environment, take it online and race all challengers New off-road vehicles: rip through the sand dunes in two new ATV models, launch off snow-capped mountains with a redesigned monster truck, or show off two new pimped out 4x4 golf karts to country-club friends New racing events, mini-games, and freestyle challenges: SuperMoto, Short track, Hill climbs, Way point races, Monster Mash, Gap Jumps, and more New outdoor freestyle: check your skills in pulling off over 40 rider stunts in this new game mode Open class competition: race numerous off-road vehicles in six-player multiplayer races Ultra-realistic physics: Rainbow's "Rhythm Racing" physics engine perfectly re-creates each vehicle's real-world handling to conquer all dangerous terrain Rainbow Studios: the creators of Motocross Madness return to their PC roots with the ultimate offroad racing game About This Game: Rainbow Studios has mastered ATV's, conquered motocross, and now redefines the genre they built on the PC. Read MoreGetting That Real Estate Investment House of Your Dreams Few moments in life are more vital to one's future than the moment one invests in real estate. Finding the right real estate investment house of your dreams is a quest that should be undertaken with precision and attention to detail. The larger real estate investment companies, like REITs and commercial real estate investment trusts (CREITs), don't operate on the smallest of budgets, so you need to find an agent who's just as smart as the company he represents. That agent will be able to tell you how the company operates, how they invest, and how they're able to make money for you. The True Value of the Company Ultimately, the answer to finding a real estate investment house of your dreams is going to be in the details. To accomplish this, you need to understand just what the company offers and how it can benefit you. Because real estate investing is risky, you can't afford to go into an investment just because it offers you a higher

What's new in Prism:

in Middle Earth TAL: Wizard's Adventures in Middle Earth (stylized as TAL: Wizard's ADVENTURES IN MIDDLE EARTH) is an American interactive Web site. The site features two sixteen-part video games with storylines, added to a free third party live-

action role-playing game (LARP). The first part of the series is a single-player game, while the second is a multiplayer online battle arena (MOBA) known as Taloria Edit. History The project was first announced as "Wizard's Adventures" on November 2, 2004. On August 29, 2005, the site became the property of active members and a full year later become a fully interactive role-playing game. Main characters There are seven playable races, each with five character classes. The following races are available for purchase at the Gamigo Game Trader: Dwarven, Orc, Elf, Human, Gnome, Lizardfolk and Goblin. In other games The TAL games were created and set in the fictional world of Middle Earth as a Live Action Role-playing game at a cost of US $4.99. They were released in the form of OSTs which were later converted to the MP3 music format to be distributed online and on CD. As of December 19, 2006, two OSTs of the TAL series, the Bard's Tale and the Council of Clans were made available exclusively in iTunes and are no longer playable through MP3 player program. In 2004, the reviews for the Bard's Tale OST by Cragocracy were rated the best in the iTunes Store, and reached #1 in the US and UK. Also in 2006, it was reported that Talaria Game Outlet was the subject of a copyright dispute with composer Dale Wright for use of soundtrack in "Guide to The Village of Brewin" from TAL:

The Bard's Tale. After negotiations which took several weeks, Wright revoked his license in 2004 with compensation and partial control over the music. All subsequent work commissioned from Wright (The Council of Clans) has been cleared of copyright ownership with permission from Wright and his label, Massawyrm Music. No royalties are being paid to Wright, as he claims that the track "The Small Troll Song" was not complete at the time of contract. However, Wright claims his music was used with permission, since its theme was already established in the game before he was commissioned to finish composing it.
