---

You want a PDF of RD Sharma's math book, right? See RD Sharma is a book with a lot of pages that you would be unable to study in PDF format. Furthermore . PDF is a format that a computer must "read". Anything you want a person with a computer to learn in PDF is a Word file. But it can't open PDF file, it can only open Word file. At least that's what some people think. They don't understand that PDF is a format designed to be read. But to play it, they need software. I can open a PDF because I know what a PDF is. I know how a PDF file works internally.
