MY POCKET PC Tools is a file manager, it's not a antivirus program, and it is not a firewall either, only a file manager. It has several buttons to open, close, or start applications, a file browser, and a navigation panel. The user can also use the program to create links to selected files and folders. MY POCKET PC Tools is ideal for most users, the only complaint you will hear from them is that you can't make them happy. Features: File Browser: The file manager

**What's New in the Randex.E Worm Cleaner?**

W32.Randex.E is a new worm which is detected by Dr. Web's security products, including Dr.Web Anti-Virus, Dr.Web Anti-Spyware, Dr.Web Real-Time Anti-Exploit and Dr.Web Rootkit. Dr.Web Anti-Virus detects the following file: "program_files\kavp32.dll" as the sign of the virus' activity. Once the worm attacks, it will delete the infected files, and then create malicious shortcuts which have the same file name. Solution: You should try Dr.Web Antivirus to remove this virus. It is available for free. Once the malicious program has been removed, make sure to check your local drive. Solution 2: You should scan your computer by Dr.Web Anti-Virus to remove the virus. It is available for free. If the virus is still active, try Dr.Web Anti-Spyware to remove the virus. It is available for free. If the virus is still active, try Dr.Web Anti-Spyware to remove the virus. It is available for free. Solution 3: You should try Dr.Web Anti-Spyware to remove this worm. It is available for free. You should scan your computer by Dr.Web Anti-Spyware to remove the worm. It is available for free. Solution 4: You should download a file cleanup program to your computer and run a scan. I recommend CCleaner. Solution 5: Close any open files and programs and turn off any running antivirus programs. You should scan your computer by Dr.Web Anti-Virus to remove this worm. It is available for free. If the virus is still active, try Dr.Web Anti-Spyware to remove the virus. It is available for free. Solution 6: Close any open files and programs and turn off any running antivirus programs. You should scan your computer by Dr.Web Anti-Spyware to remove this worm. It is available for free. If the virus is still active, try Dr.Web Anti-Spyware to remove the virus. It is available for free. Solution 7: Click on Start, point to Control Panel and then to Add or Remove Programs. Solution 8: Press Win+R and type regedit, press OK and then press Enter. Solution 9: Find and delete the file named "program_files\kavp32.dll" in the registry. Solution 10: You should scan your computer by Dr.Web Anti-Spyware to remove this worm. It is available for free. If the virus is still active, try Dr.Web Anti-Spyware to remove the virus. It is available for
